You also have some underbuild areas used for tool room, well house and storage, at the moment the current owners use their own water supply but we are told that you can connect to the community water which is available. The property has a 10,000 litre deposit with two smaller filtered storages of around 600 litres each. The present owners have also installed 24 solar panels, central heating which can run on both the Gas and Oil supplies and boilers. The grounds include a heated swimming pool , patio area and BBQ/Bar area. Most of the trees are mature olives on terraced slopes and some of the areas have irrigation pipes . It is very unusual to find a country property so close to amenities and the beach, even more so when it is the La Cala de Mijas area
Please note the present owners have applied for an AFO and will be installing a new waste system
